DELSYS WEBINAR SERIES

Exploring Human Movement Research with Wearable Sensors

This webinar highlights how our Trigno™ Wireless sensors expand the movement measurement capabilities of researchers and clinicians. Learn why you should insist on research-grade technology, and explore how EMG is used in several applications, from standalone biofeedback tasks to fully-instrumented biomechanics research. For students & researchers interested in using wearable sensors to collect high-quality EMG signals and other movement measurements.

We welcome you to sign up for one of the sessions below:

November 15, 2016 – 09:00 AM EST

November 16, 2016 – 09:00 PM EST

November 17, 2016 – 02:00 PM EST

For additional details, please visit delsys.com/webinar
